

# English Project

## Hello Family Members!

With our English project this term, we are going to be studying Recycling: The project starts from November 15<sup>th</sup>, 2015 and will continue till November 26<sup>th</sup>, 2015. We will be integrating Science, Art, Math, Social Studies and in this project as well.

The students work will be displayed for you all to see.

## Don't Trash the Earth

<p><b>Big Idea</b> (a broad statement about the science topic we are studying)</p> <p>Social responsibilities-who decides?</p>	<p><b>Material Needed;</b></p> <ul style="list-style-type: none"><li>• Colored papers</li><li>• A3 White papers</li><li>• Markers/colors</li><li>• Glue, ruler</li><li>• Safety scissors</li><li>• Recyclable and reusable materials to create recycled art projects)</li><li>• Chart Paper (white)</li><li>• Formic Sheet (white)</li><li>• Crape Paper (shades of blue)</li></ul>
--	---

To stay up-to-date with our progress, ask your child about what's happening in English class often. Talk with your child and help him/her research about the topic. To reinforce what we're doing, try this activity with your child.

Your child is learning about Recycling and conservation. Search on the internet, through books or watch national geographic to learn about conservation and recycling. Discuss with your child.

Discuss the importance of Recycling and why we need to recycle materials..

Share what you've learned with other family members!

Your co-operation would be highly appreciated. Thanking you in anticipation!
